

404 UV Plate Cleaner

Plate Cleaner for UV Inks

404 UV PLATE CLEANER

UV printing inks have a different rheology than conventional inks. UV Plate Cleaner employs latest formulation to efficiently clean UV-LED-HUV inks from printing plates. It contains solvents that strip off UV Inks and ingredients that impart hydrophilic properties to the non-image areas and make the image areas. The product has helps in overcoming plate blinding issues that are common with baked plates and when printing with UV Inks.

DIRECTIONS FOR USE:

Apply the product with a water dampened sponge or cloth. Wipe off with a clean rag. For short term storage, apply as described and buff dry after all ink has been removed from the plate.

FEATURES AND BENEFITS:

- o Single product for rinsing, finishing and preservation of all types of printing plates.
- o Stable emulsion that does not separate for a long duration storage.
- o Strong desensitizing action on non-image areas which helps regain the hydrophilic property of the plates.
- o Suitable for plates manufactured by all major plate manufactures.

SPECIFICATIONS:

- o Flash Point: Greater than 90 degrees celsius
- o VOC Data: NA
- o pH: 3.00
- o Odor: Sweet
- o Appearance : Milky White Emulsion.

PACKAGING

- 5 Ltr x 4
- 1 Ltr x 15
